

For Parents

At the beginning of each monthly unit, your child will bring home a *My Sunday Pictures* card just for you. On each card are activity ideas you can save to use throughout the unit. Your child will also get a weekly card with stories and activities to review what was learned in class.

Learning Bible Words

Help your child learn the Unit Memory Verse by doing this action rhyme from Sunday school. The memory verse is in the last line of the rhyme.

God made me,
(Point to self.)
God made you,
(Point to someone else.)
God made my family, too!
(Hug self.)
God loves me,
(Point to self.)
God loves you,
(Point to someone else.)
He said, "**Love one another**," too.
(Arms open wide.)

Families Are Great!

My family is everybody. And everybody is wonderful! That is the view held by most preschoolers. Their world is full of people who love and support and protect them. God planned for them to belong to loving families.

In Sunday school this month your child will learn that God has provided families to love and care for children today, just as He provided for people in Bible times.

Family Time

Even a simple trip to the backyard can be fun when you take the camera along. Get the whole family in the picture by asking a neighbor to help. Smile!

Take time to insert happy family comments into daily conversation. After a laugh about something funny, say: "I'm glad God made us to be a family that can laugh and have fun together!"

Thank God for your child at bedtime. Have him say "Thank You, God, for Daddy and Mommy." Relate more prayers of thanks to the events of the day. For example, "Thanks, God, for the fun we had together at the picnic."
