

God Made Plants

God made many kinds of plants and trees. He made them all different. Draw a line from the fruit or leaf inside the square to the place where it would grow in the picture.

A long time ago there was no world. There were no fish, no people, no plants. There wasn't anything. God decided to change that.

God spoke and made light. He made the sky and the clouds. He also made the water and the dry land. God saw that the land needed something to

cover the brown earth.

God created plants, grass, and flowers. God made the earth look nice. God liked what He had made.

Lesson 1 Bible story based on Genesis 1:1-13. "All things were made by him," John 1:3.

Plants, Flowers, and More

Do you wonder if God counted the plants when He made them? God made all of the plants, flowers, trees, and grass.

Count the number of plants shown in each picture. Write the number in the space provided.

Be sure to thank God for the plants and flowers. They make our world a nicer place to live.
