**PARENTS:** This puppet will help your child recall and play the stories about Preeta which he/she has heard in Sunday School.

## INSTRUCTIONS FOR USE SEPTEMBER, OCTOBER, NOVEMBER

Because of the printing process, the pages cannot be arranged in the order of use. Check the instructions carefully for the correct page numbers for each project. Do not assume that pages 5/6 go with Lesson 5, etc. Pull the pages apart and put them in folders for each lesson.

If you teach fours only, you will want to make some adjustments for them. Prepare some of the difficult parts ahead of time. Show children how to fold by matching the corners, then creasing carefully. Or you may make a small crease at each side and let the child finish folding. For very immature children, you may prefold the page, then open it up, so all they have to do is refold it. Note the special suggestions with each project.

Look for other ways to simplify procedures, yet allow the children to make their own projects. The most important thing is for the children to remember the purpose of the project: either Bible story reinforcement or life application of a spiritual truth.

### MATERIALS YOU NEED FOR COMPLETING PROJECTS
